## **Energy Performance Certificate**

#### Flat 4, 22-26 South Street, WORTHING, BN11 3AA

| Dwelling type:       | Mid-floor flat |          |      |
|----------------------|----------------|----------|------|
| Date of assessment:  | 05             | February | 2016 |
| Date of certificate: | 20             | February | 2016 |

Reference number: Type of assessment: Total floor area: 8756-7222-4000-2225-9902 RdSAP, existing dwelling 84 m<sup>2</sup>

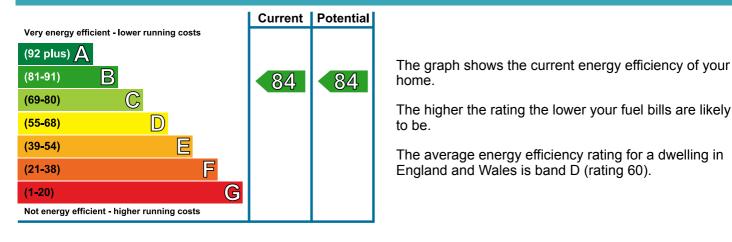

#### Use this document to:

Compare current ratings of properties to see which properties are more energy efficient

#### Estimated energy costs of dwelling for 3 years: £ 1,038 Estimated energy costs of this home **Current costs** Potential costs Potential future savings £ 177 over 3 years Lighting £ 177 over 3 years Heating £ 543 over 3 years £ 543 over 3 years Not applicable Hot Water £ 318 over 3 years £ 318 over 3 years **Totals** £ 1,038 £ 1.038

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances like TVs, computers and cookers, and any electricity generated by microgeneration.

#### **Energy Efficiency Rating**

**Energy Performance Certificate** 

### Summary of this home's energy performance related features

| Element               | Description                              | Energy Efficiency                     |
|-----------------------|--|---------------------------------------|
| Walls                 | Solid brick, with internal insulation    | $\bigstar \bigstar \bigstar \bigstar$ |
| Roof                  | (another dwelling above)                 | —                                     |
| Floor                 | (another dwelling below)                 | -                                     |
| Windows               | Fully double glazed                      | $\bigstar\bigstar\bigstar\bigstar$    |
| Main heating          | Boiler and radiators, mains gas          | ★★★☆                                  |
| Main heating controls | Programmer, room thermostat and TRVs     | $\bigstar \bigstar \bigstar \bigstar$ |
| Secondary heating     | None                                     | -                                     |
| Hot water             | From main system                         | ★★★☆                                  |
| Lighting              | Low energy lighting in all fixed outlets | ****                                  |

Current primary energy use per square metre of floor area: 77 kWh/m<sup>2</sup> per year

The assessment does not take into consideration the physical condition of any element. 'Assumed' means that the insulation could not be inspected and an assumption has been made in the methodology based on age and type of construction.

#### Low and zero carbon energy sources

Low and zero carbon energy sources are sources of energy that release either very little or no carbon dioxide into the atmosphere when they are used. Installing these sources may help reduce energy bills as well as cutting carbon. There are none provided for this home.

#### **Recommendations**

None.

# Flat 4, 22-26 South Street, WORTHING, BN11 3AA 20 February 2016 RRN: 8756-7222-4000-2225-9902

#### About this document

The Energy Performance Certificate for this dwelling was produced following an energy assessment undertaken by a qualified assessor, accredited by NHER. You can get contact details of the accreditation scheme at www.nesltd.co.uk, together with details of their procedures for confirming authenticity of a certificate and for making a complaint. A copy of this EPC has been lodged on a national register. It will be publicly available and some of the underlying data may be shared with others for compliance and marketing of relevant energy efficiency information. The Government may use some of this data for research or statistical purposes. Green Deal financial details that are obtained by the Government for these purposes will <u>not</u> be disclosed to non-authorised recipients. The current property owner and/or tenant may opt out of having their information shared for marketing purposes.

| Assessor's accreditation number: | NHER009232                |
|----------------------------------|---------------------------|
| Assessor's name:                 | Mr John Hale              |
| Phone number:                    | 07918 108 060             |

| Related party disclosure:        | No related party          |

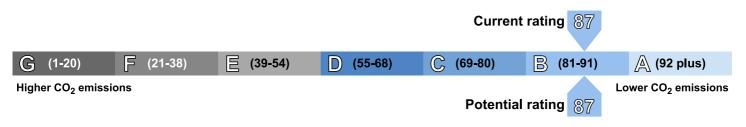

Further information about Energy Performance Certificates can be found under Frequently Asked Questions at **www.epcregister.com**.

#### About the impact of buildings on the environment

One of the biggest contributors to global warming is carbon dioxide. The energy we use for heating, lighting and power in homes produces over a quarter of the UK's carbon dioxide emissions.

The average household causes about 6 tonnes of carbon dioxide every year. Based on this assessment, your home currently produces approximately 1.1 tonnes of carbon dioxide every year. You could reduce emissions by switching to renewable energy sources.

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide  $(CO_2)$  emissions. The higher the rating the less impact it has on the environment.

#### Your home's heat demand

For most homes, the vast majority of energy costs derive from heating the home. Where applicable, this table shows the energy that could be saved in this property by insulating the loft and walls, based on typical energy use (shown within brackets as it is a reduction in energy use).

| Heat demand                  | Existing dwelling | Impact of loft<br>insulation | Impact of cavity wall insulation | Impact of solid wall insulation |
|------------------------------|-------------------|------------------------------|----------------------------------|---------------------------------|
| Space heating (kWh per year) | 1,263             | N/A                          | N/A                              | N/A                             |
| Water heating (kWh per year) | 2,108             |                              |                                  |                                 |
